

2018 CHILDREN'S BURN FOUNDATION OF FLORIDA, INC. – CAMP TEQUESTA

Each year there are two million burn injuries in the United States of which one million are children. Fire and burn injuries are the second leading cause of accidental deaths in children aged one to four and the third leading cause of injury and death in ages one to eighteen. Over 100 children a day are being treated in emergency rooms for kitchen and scald burns alone. Although, we cannot lessen the pain and suffering of a burned child we can all join together to help send a burned child to camp.

The Children's Burn Foundation of Florida, Inc. is the first statewide burn camp of its kind in Florida. We are a 501 (c) (3) nonprofit organization that benefits children to enjoy "a weekend of memories" and meet new friends. Our camp, Camp Tequesta meets every November for four days at the Florida Elks Youth Camp in Umatilla, Florida in a camp like setting. Every child has his/her own adult buddy to accompany them for the weekend. Fire department personnel, burn units, educators, burn survivors, corporate representatives and many dedicated friends make up our buddy/staff volunteers. We have enjoyed great success with this program and always look forward to attending each year. Last year, we invited 55 children, buddy and staff volunteers from California, Florida, Georgia, Texas and from across the pond – London, England. This year's camp is scheduled from November 8-11, 2018 (celebrating our 28th anniversary).

By attending burn camp, children that have been burned will have many life-enhancing experiences that will help them learn, grow and develop. The burn camp allows children that have been burned to realize that they are not the only ones with burn-scarred bodies. The camp provides an environment where children can share their feelings about being burned, realizing that others have had similar experiences, forget that they look different and know that they are "someone special."

Although the camp is once a year, we maintain contact throughout the year with the children with parties, barbeques, emails, Facebook and the like. It is a very exciting time for us to make changes in these children's lives (and ours). None of our volunteers are in a paid status and we depend on contributions only.

Additionally, we provide gift cards, college, medical and hardship scholarships. For example, along with providing funds to further our kid's education, we have purchased a powered medical scooter, new clothes and gift cards for those facing challenging times. We have fundraisers year round where the buddies/staff and the children, (including their families) are invited to attend. We sponsor the following programs annually - girls to attend the Angel Face program, a child and their buddy to attend the International Association Fire Fighters Burn Foundation's Burn Camp in Washington D.C., a child and their family to attend the World Burn Congress and a young adult and a buddy to attend Oklahoma's Young Adult Conference. Every year the list grows for conferences to attend.

The goals of the burn camp are: 1. To provide a lifetime of memories. 2. To provide an opportunity to make choices and be independent. 3. To develop new skills. 4. To develop new friendships and renew old ones. 5. To provide the special attention the burned children desire. 6. To provide GOOD OLD-FASHIONED FUN!
